Legal Status:

Monitoring and Review

- This policy will be subject to continuous monitoring, refinement and audit by the Principal
- The Principal will undertake a formal annual review of this policy for the purpose of monitoring and of the efficiency with which the related duties have been discharged, by no later than one year from the date shown below, or earlier if significant changes to the systems and arrangements take place, or if legislation, regulatory requirements or best practice guidelines so require.
- The next official date for review is **December 2020**

Introduction

Learning to live a healthy lifestyle can contribute to young people's personal, social and emotional wellbeing, helping them to function well in life, learning and work. The College's healthy lifestyles policy is included in PSHE and citizenship syllabuses through which we educate the students to balance what they eat and drink, including drugs and alcohol, with the exercise they take, the time for social interaction and the amount of sleep they get. Reference to the policy is also made during house meetings and the College regularly invites speakers in to talk on the dangers of drugs, alcohol and smoking.

Alcohol

No alcohol is allowed on site. Adult students are allowed to leave the College premises and visit restaurants and public house, but it is stressed that they may not over-indulge and return to the College. If staff take out a group of adults to a place serving alcohol, **no alcohol may be consumed by the member of staff.**

Smoking

Smoking is not allowed on campus, in any of the buildings or classrooms apart from one small area that is set aside where students aged 18 plus may smoke if they wish. Only 18 plus students are allowed in this area. This helps to confine the smoking to one area, gives us knowledge of who the smokers are in the College.

Student Relationships

The emotional development of the students and their relationships with the opposite sex is monitored by the House staff and Welfare staff. Older students are warned not to be demonstrative towards the opposite sex in front of younger students, and that continually being asked to refrain will be cause for punishment.

ABBHEY COLLEGE IN MALVERN

abbeycollege.co.uk

We have a strict policy wherever we believe intimate sexual relations are occurring – initial discussions with a senior member of the team will take place and, if deemed appropriate, outside help will be sought, often through the Doctor, but sometimes through a direct approach to the appropriate authorities.

Drugs

'Drugs' are substances that alter the mind or the body. This policy is concerned with alcohol, tobacco and solvents, over the counter and prescribed drugs such as tranquilisers and painkillers, and illegal drugs such as ecstasy, LSD, cannabis, crack/cocaine and heroin.

Drugs are banned and the College will call in the local police authorities if we have evidence that drugs are being taken. The continual use of illicit drugs will result in expulsion from the College.

Supplements & Energy Drinks

'Supplements' are defined as substances that are used, for example, to speed up muscle development.

'Energy Drinks' are such drinks as Red Bull.

Following guidelines from the local GP, all protein or similar supplements are banned on campus as medical opinion is that they generally don't do any good and can cause digestive issues; also, unless students are in serious training (8 hours a day for example), they should get everything they need from their normal diet.

All energy drinks are also banned as they also pose serious health risks, particularly if drunk in quantity.

Any found in students' rooms will be confiscated and disposed of immediately.

Meals

Three meals a day are provided in the Canteen apart from Saturday and Sunday when 'brunch' and dinner is served, but there are self-catering facilities in most houses and students are encouraged to achieve a degree of self-sufficiency. The contractors running the canteen have been instructed to ensure that a healthy menu of food is always provided. The students' voice is heard regarding what food is served in the canteen through the Food Committee.

If a student has particular dietary requirements (related to their health or religion) the chef will be informed of this and will either indicate to the student which menu items are appropriate, or will cook specialised meals for the student.

Some students either have, or request, a fridge in their bedroom. Students are taught about basic food hygiene and how to store their food correctly. This is also monitored by the House Parents and there is a selection of instructional posters in each boarding house kitchen.

In addition to the above, students can also access drinks and snacks from the Tuck Shop and fruit, bread, butter and jam is available in the dining room from 4pm to 4.30pm daily.

Drinking Water

ABBHEY COLLEGE IN MALVERN

abbeycollege.co.uk

Students have access to drinking water in the communal boarding house kitchens. Signs above each tap indicate whether the students can drink the water or not. This information is included in the Student Handbook. There is also a water fountain in the dining room and drinks are available at meal times.

Personal Hygiene

Staff need to be aware of the need for a good level of personal hygiene and monitor the students to make sure that this level is maintained. Students should be reminded to use the laundry regularly. Some students have en-suite facilities but for those who have not, washing and toilet facilities are nearby and in adequate provision. If required, students can request personal hygiene items from Student Services.

Exercise

The College provides a balanced programme of sport and activities which the students should be encouraged to take part in. In certain sports qualified staff are brought in as required to give expert tuition.

The College only instructs non-contact sport and avoids high risk activities, unless a specialist firm or instructor has been employed (checked by the College). In the event that the College arranges access to a high risk sport or activity it will usually request written permission from the parents of participants under the age of eighteen.

Religion

If a student has particular religious beliefs that require a certain diet, a room to pray, this can be arranged as long as the student communicates their needs.

Bed registers/check

Bed registers should be completed by the staff member assigned to do this at bed time. The register should then be left in the appropriate place.

When on bed check duty the members of staff should confirm that the person indicated by the Rota is in the house after the check so that students have a contact in an emergency.

See full Bed Checking Policy further in this document.

Accident book

Any accident, whether to a student, member of staff or visitor, on campus should be reported in the accident book (located in Student Services)

Fire logs

These should be completed whenever there is a fire drill by the member of staff in charge of the particular building. Fire drills are held on a regular basis and supervised/recorded by the Maintenance team and the Director of Studies (EFL).
